Mentors' tasks

- Mentors are sophomore or senior students that go to the same university and help the institutional integration of their mentees. After the mentees' arrival to Hungary, mentors help them with the integration to student scene. It is the mentors' responsibility to keep in touch with their mentees and to inform them about any current institutional competitions and scholarships, as well as about the institutional academic system.
- Mentors may work in groups and help 7-15 mentees at the same time, which they receive allowances for.
- Mentors are responsible for their positions for one academic year – during which they are required to own students' status.
- Mentors are kindly asked to forward matters to the mentor network's management of their mentees that cannot be solved within their own responsibility.
- Mentors are responsible for keeping in touch with the institution's leading mentor, for satisfying their administrative tasks and for giving monthly written records on their tasks.

- Mentors are required to do their utmost and be present on trainings and on country image building programmes organised by the management of the mentor network.

- Since the common working language of the Stipendium Hungaricum Mentor Network is English, mentors are all required to be fluent in English.
- In case of successful application, mentors are required to visit the Mentor Camp, organised by the managers of the mentor network, during which their accommodation, dining and training is proved.
- Applicants must send fill the given Google form upon with their personal information, CV and motivational letter in English.
